

How-To TrackerMaps GUI

Step 1

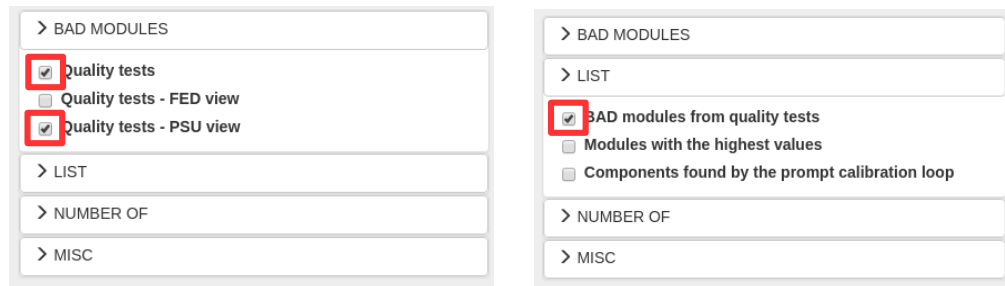

Load a **Reference Run** by opening the file dialog

Step 2

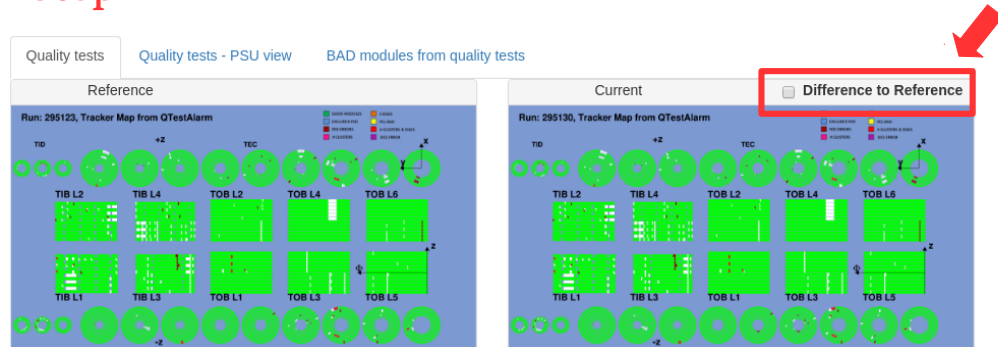

Repeat for the **run** you want to compare it to

Step 3

Select the **Maps / Logs** that you want to compare by expanding the sections

Step 4

Select the tab that you want to inspect. Zoom and pan in the images, by hovering with your mouse over them and using the scroll wheel. It will keep the Reference and Current synchronized.

Enable **Difference to Reference**, to show a Diff-view between the two.
